Jeff,

GAI's field lead for that sampling event was Allie McCurdy. I confirmed with her that you would like her name on the eDMR.

Sincerely,

John,

What name needs to go on the eDMR for these samples?

We will transfer the data into the eDMR form and need a name for 010. I will certify.

We no longer need to submit paper copies.

Ken / Jeff,

Attached are the complete results for the:

- 4-hr manual flow composite samples collected on 2/8/16 for metals, and
- 24-hr manual flow composite samples collected on 2/8 and 2/9/16 for acute toxicity.

Acute toxicity results are good for both the UV and non-UV treated samples. I attached the acute toxicity lab report.

Sincerely,

John D. DeBarbieri, P.E.
